## About BG Wealth Group®

### OUR STORY THEN....

The story of BG Wealth Group started long before the company made its first real estate acquisitions. CEO/Co-Founder Craig Dunkerley, a real estate investor since age 25, made his first significant acquisition of depressed properties in 2013 in Detroit, an undervalued market. The success of this acquisition spurred the growth of BG Wealth Group and an international portfolio that includes Canada and the United States. This proven acquisition model continues to excel at building accelerated and long-term wealth for its Investment Partners.
